Edmonton School of Arabic

November 05, 2011

Dear: Nene Tereza

Re.: The prospective partnership in promoting cultural understanding.

We are absolutely delighted that our project is going on very well, on combining our mutual efforts in endorsing multicultural awareness in the spirit of diversity and respect for all members of our local communities and beyond.

We are pleased to offer our support and professional expertise in fields such as:

- 1). Teaching Arabic language through active learning and tutorials operated by skilled Arabic speaking teachers;
- 2). Arabic folk dance classes for boys and girls;
- 3). Musical classes involving learning Arabic folk songs;

We are also very happy to inform you that Edmonton School of Arabic is now making all necessary preparations to introduce the GCSE exams performed in Arabic language, in the very near future. We are currently working with the younger students and the older groups focusing on such exams taking place.

Furthermore, we are taking the essential steps to organize a football coaching for children from various age groups from amongst the local communities.

Meanwhile, our organization is looking forward to learn from your experiences and your expert skill in various other fields. Undoubtedly such collaboration will profit our students and the members of the local community, strengthening the cross-cultural relations both on a personal and sociocultural level.

Once more we wish to express our enjoyment in working with your organization and look forward to meeting you soon.

With our kind regards
Edmonton School of Arabic
Mohammed Yousfi – Director
