Dear: Nene Tereza London

Re.: The prospective partnership in promoting our cultural and serving Albanian community.

Ardhmeria UK is a big organisation and is operating in partnership with lots of organisations in England and one of them is your Organisation. We are happy how our partnership is working on combining our activities for our community.

We are pleased to offer each-other our support and professional expertise in fields such as: Teaching, dancing, management structure.etc..

We are working in partnership together for the Albanian community in the UK, to make sure that, children and families to have a clear sense of identification and belonging to their cultural and ethnical background, and feel empowered to fully take part in their school environment, and everyday community life.

A very strong point in partnership with Nene Tereza London is, to support children and young people to increase their confidence and self-esteem, we help them; to have new skills and knowledge, to improve their behaviour and attainment, progression into employment and improve access to other services. We exchange the staff experience by inviting each-other to our schools and all the activities throughout the school year. We organise activities together successfully. A good example is the activity we organised in partnership together to celebrate the 100 Years Independent day of Albania on 25th of November 2012.

We enjoy working with your organization and look forward to collaborate for new projects.

Kind Regards

Director of Ardhmeria UK

Lutfi Vata.
